

Worship Seating Buyer's Guide

Integrity Furniture is pleased to present you with this copy of our “Worship Seating Buyer’s Guide.” Throughout the pages of this catalog, you will find commercially made worship seating products to meet any style of worship.

Since 2000, Integrity Furniture has offered churches three unique and different forms of seating. For churches that need flexibility, we offer stacking chairs from Comfortek and Bertolini. These companies produce comfortable seating that allows you to use your space during the week for things other than worship. These chairs can be configured in straight or curved rows and aisles can be created where and when you need them.

For more contemporary worship venues, Integrity Furniture can provide you fixed theater seating that offers a comfortable seating experience that includes wider seat widths than traditional stack chairs. We can show you how a theater seat can provide 20% more seating capacity than traditional pews using the same footprint.

For the more traditional worship spaces, we can connect you with several different pew manufacturers depending on your location in the United States and your budget. We can also provide the corresponding furniture of communion tables, pulpits, tithe boxes, and chancel furniture.

With over 200 manufacturers at our fingertips, we can assist you in furnishing the rest of your building as well. We give you a sneak peek of what we offer on pages 28-29 or you can visit our website at www.integrityfurniture.com.

We look forward to helping you design and experience a worship area that is welcoming and provides comfort and durability for years to come. We welcome the opportunity to work with you in regards to your worship seating needs. Please call us at 1-888-600-8639 to answer any of your questions or if you want to schedule a meeting with one of our sales representatives.

With Integrity,
Drew Coleman
President/Owner

AFFILIATIONS

The CO+OP connects churches, schools and nonprofit organizations with reputable vendors and resources to save time and money on products, services and education.

The Church Network (TCN) is an inter-denominational professional association of churches and individuals which exists to connect, develop, and strengthen church leaders in administration.

Lifeway Christian Resources exists to honor God and serve churches by designing trustworthy experiences that fuel ministry.

ComforTek Seating has been manufacturing church chairs since 2000. They started primarily in the worship seating marketplace, manufacturing a new design of sanctuary seating that incorporated a pew like ganging style. Over the years they have honed their church chairs into one of the market leading options. With industry leading innovations such as cold cured foam and their comfort style back, they've developed a chair that is attractive, comfortable and affordable. Integrity Furniture has represented ComforTek to churches since 2005 and we appreciate them for their quality product and innovation.

 **BERTOLINI**
SANCTUARY® SEATING

For more than 60 years, Bertolini has produced high quality chairs and delivered seating options that bring elegance, comfort, and durability to worship centers throughout the United States. Their Ergo-V plastic back creates a lightweight chair that helps facility teams that set up and take down regularly. Their commitment to excellence shows in the quality of the materials they use, their innovative assembly techniques, and the rigorous testing and inspection process their chairs undergo. Bertolini manufactures their seating in Lawrenceburg, Tennessee.

They are committed to providing you with excellent service and delivering the finest-quality solutions for all of your future needs.

Call Integrity Furniture today to request more information or set an appointment to see a sample and learn more about Series Seating.

Series Seating

Series Seating

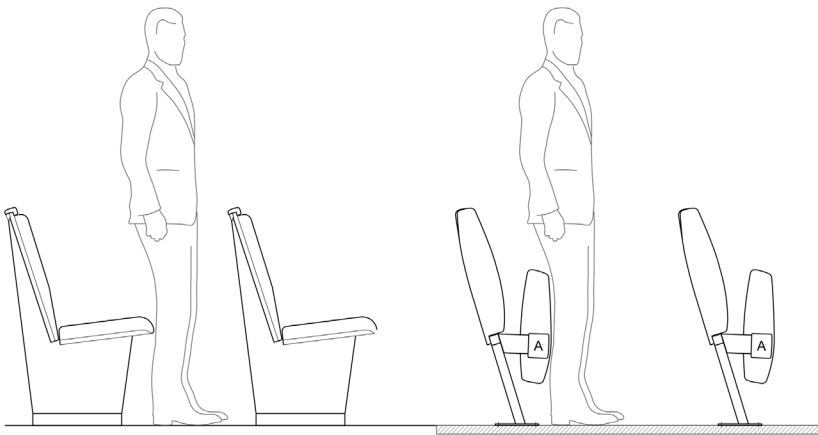

Stewardship Sensitive Seating

Twelve Benefits Over Conventional Pews

There are twelve distinct benefits to the SERIES Vera chair over conventional pews.

1. Provides between 20% to 30% gain in seating capacity over the use of pews.
2. Provides greater traffic flow.
3. Presents a lower overall cost per person.
4. Allows a radial layout configuration.
5. Provides better sightlines for each individual.
6. Provides reduced maintenance / lower cost of ownership.
7. Reduces other code requirements imposed by pews.
8. Makes it easier and less expensive to reupholster.
9. Is more conducive to growth and expansion.
10. Is more conducive to special events.
11. Provides more comfort in both a seated and standing position.
12. Directly enables churches to serve the community in new and creative ways.

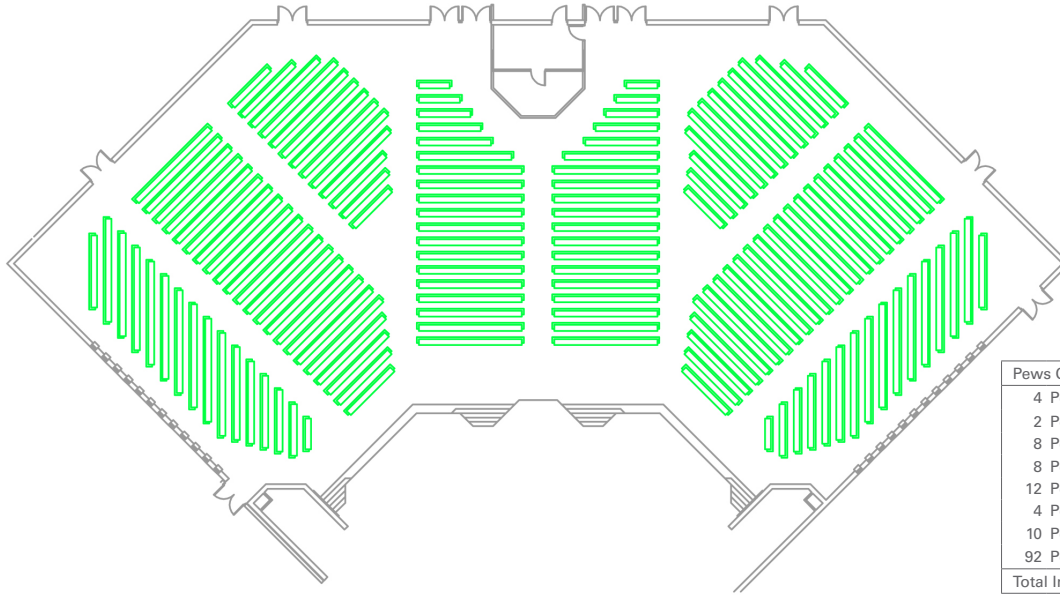

As you can see in the image above, using the same spacing for pews and fixed seating, the ingress and egress is much greater and easier to maneuver with fixed seating.

BEFORE - 1488 seats

Building codes limit the length of a pew to a maximum of 21'-6" which increases the number of required aisles. The pew layout below calls for a minimum of 9 aisles, creating a loss of seats for a total capacity of only 1488.

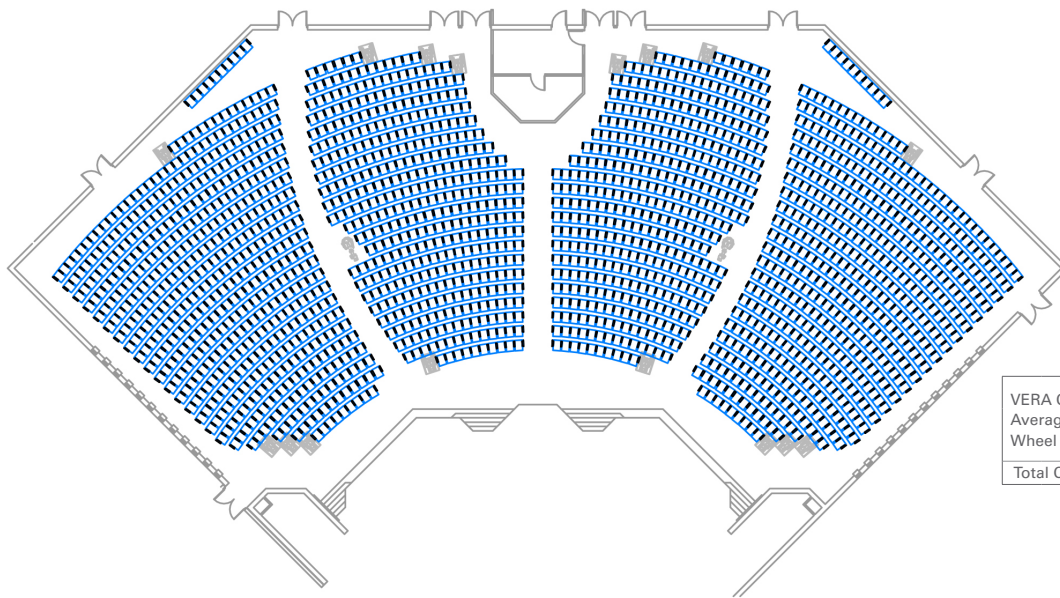

Series Seating

Pews Quantities and Lengths		
4 Pews	7'4"	= 352"
2 Pews	9'6"	= 228"
8 Pews	11'8"	= 1120"
8 Pews	13'10"	= 1328"
12 Pews	16'0"	= 2304"
4 Pews	18'2"	= 872"
10 Pews	20'4"	= 2440"
92 Pews	22'6"	= 24840"
Total Inches		33484"
Capacity 1488 @ 22.5" per person		

AFTER - 1880 seats

Fire codes recognize the added egress provided by the Series VERA chair, permitting more than three times the row length of a pew. This reduces the number of required aisles to only 5 for a total of 1880 seats and a 26% gain in seat capacity, just from the difference in aisles alone.

VERA Chair	
Average width	22.5" = 1864
Wheel chair spaces	= 16
Total Capacity	1880

Church Interiors, Inc.

Integrity Furniture is pleased to partner with Church Interiors, Inc. to help churches remodel their facilities. Church Interiors, Inc. has renovated small chapels that seat less than 100 people to large sanctuaries & cathedrals that seat over 5,000, including many churches on the Historical Registry. Design, renovate, and furnish is how they simplify the process for their clients and they perform services to hundreds of churches every year, saving every church client time and money. Church Interiors, Inc. has a Nationwide Dealer Network of project consultants and installers who are eager to make improvements to your church.

Their goal is to make your worship spaces beautiful at the lowest possible cost with little or no disruption to your church services. In the early stages, they work with your congregation committee to create a design that works best for your needs. There is no charge for their initial consultations.

Church Interiors, Inc. began working with churches on renovations and building projects in 1981 and they have completed thousands of renovations. Integrity Furniture is ready to help you make the connection with Church Interiors, Inc. and began your remodeling process. Give us a call at 1-888-600-8639 to get started.
