Front of Seat

Synchro Tilt

Height Adjustable Headrest

3-Way Adjustable Arms

COOL & COMFORTABLE

The Clever Collection is a group of 'smart' office chairs. It's smart not because it talks to Alexa or can be controlled by your phone, but because of its design. The memory gel at the front of the seat adds comfort and takes stress off your back and legs. The breathable mesh back keeps you cool throughout the work day and functions that allow you to optimize your position with pneumatic seat height, 360 degree swivel and tilt-tension. With a limited lifetime warranty, it really makes these chairs a no-brainer.
